ABOUT US

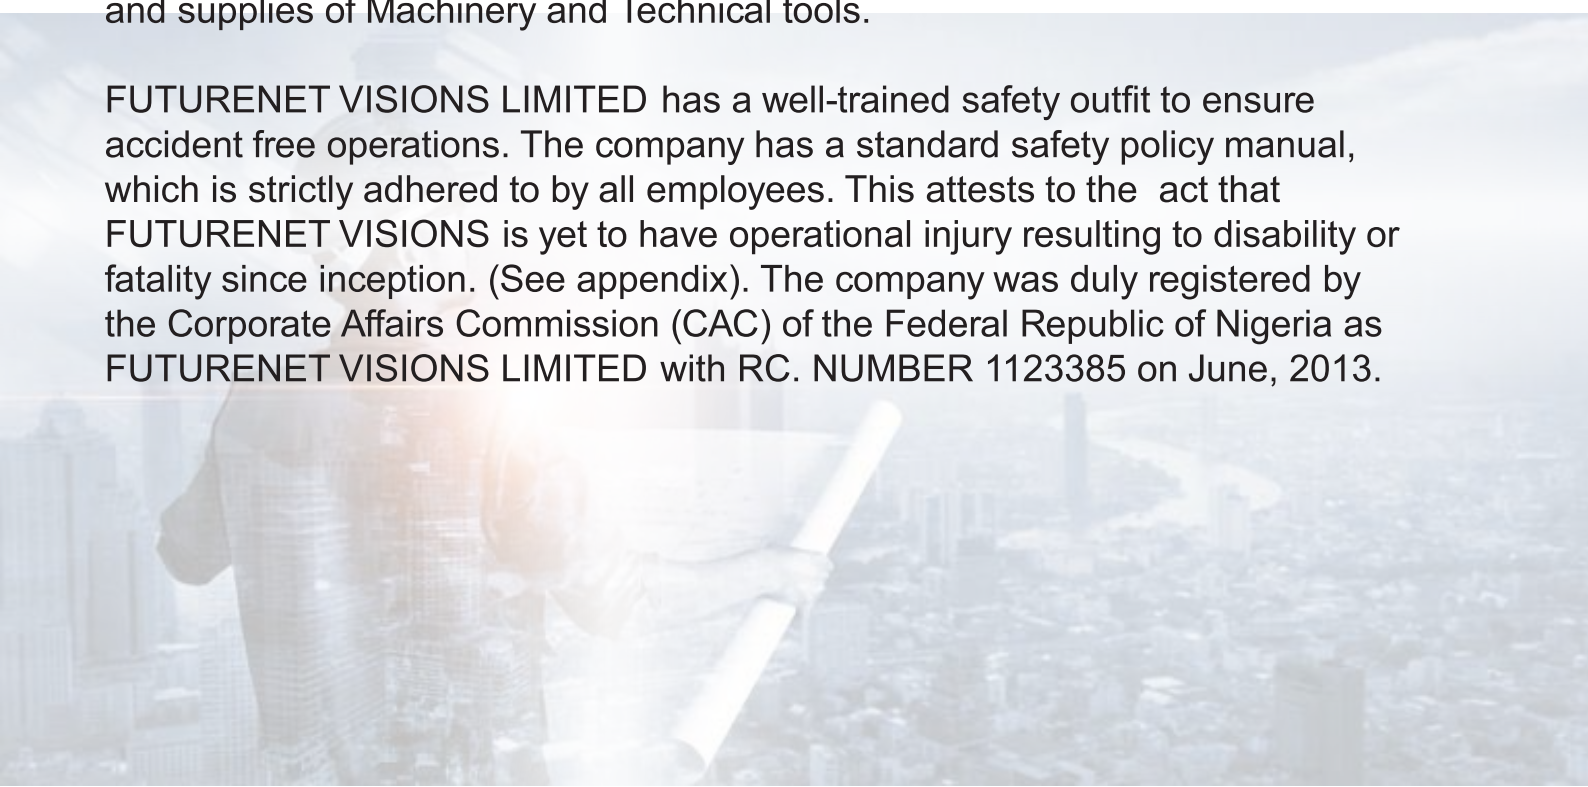

FUTURENET VISIONS LIMITED was founded in 2013 with the aim of providing professional engineering and construction services.

FUTURENET VISIONS LIMITED is a member of The Bistar Limited Group, an indigenous company registered to carry on business of civil engineering, construction, energy, general merchandising in Nigeria. The company has a rich heritage of experience over the years.

We also provide specialized services in design, planning and execution of Engineering services, which includes road, building, earth dam, irrigation scheme, pipeline, transportation, supply of plants and equipment. The company has the reputation for efficiency and fast delivery of services to our numerous customers. This quality, which we have worked hard, to attain and also maintain, has given us recognition in various oil services companies, government and non-government organization.

We took time to employ well qualified and experienced engineers and professionalmen to form a solid team for effective execution of important Engineering services, transportation and supplies to clients' specification and satisfaction using the most modern methods. Class of projects the company has capability to execute but not limited to road construction, Civil engineering works, Mechanical engineering works, Building, Structural Engineering Design and Construction, Projects Management, General Maintenance, Electrical Engineering Works, Transportation of Equipment and other Transport services and supplies of Machinery and Technical tools.

FUTURENET VISIONS LIMITED has a well-trained safety outfit to ensure accident free operations. The company has a standard safety policy manual, which is strictly adhered to by all employees. This attests to the fact that FUTURENET VISIONS is yet to have operational injury resulting to disability or fatality since inception. (See appendix). The company was duly registered by the Corporate Affairs Commission (CAC) of the Federal Republic of Nigeria as FUTURENET VISIONS LIMITED with RC. NUMBER 1123385 on June, 2013.

VISIONS STATEMENT

The Company continues to move forward in becoming the leading Engineering and Construction firm in Nigeria and eventually the region, by consistently delivering projects that meet international standards.

MISSION STATEMENT

With a well-defined direction in place, the path to realizing our Vision is based on fundamental drivers, instrumental in achieving our goals.

Our mission:

To undertake the engineering and construction business with a focus on becoming the cost leadership with excellence in every aspect to meet customers' stringent requirements regarding quality, on-time delivery, safety and environmental concerns.

To develop an effective management that stresses productivity, perpetual development of the organization, and instilling work ethics in all personnel.

To build value for the organization in order to become a unique and distinct firm.

To remain focus on control organizational growth and recognizing those who contribute effectively.

Our future:

With our philosophy, values, and mission firmly in place, we are targeting controlled growth and sustained profitability in the future. Our responsibility to our clients, employees, and shareholders remain the principal focus of our operations and is defined by our corporate values.

As we move into the future, FutureNet Visions Limited is better prepared now than ever before and will take its ventures beyond the design stage – creating a physical reality that can be touched and felt. With the rough road ahead, we are ready to take on whatever challenges that come its way without losing sight of its vision; all of us at FutureNet Visions Limited remain committed to excellence and growth.

CORPORATE VALUES

To further develop our corporate strengths we have established a corporate mandate to maintain strong core values that truly reflect the company's philosophy. Having stood the test of time, transparency and good corporate governance remain our top agenda. At FutureNet Visions Limited the principles supporting this philosophy are permanently ingrained in our corporate values.

■ PEOPLE ■ COMMITMENT ■ INTEGRITY

■ ADAPTABILITY AND FLEXIBILITY

■ TRUST ■ CONTINUOUS LEARNING

■ CUSTOMER SATISFACTION

OUR SERVICES

A. ENGINEERING SERVICES

CIVIL WORKS

- Building and Civil Engineering constructions including maintenance, redesigning and renovation of old buildings
- Designs and construction of highways, and ancillary works (culverts, lay-bys etc)
- Designs and construction of bridges of all types including the supply, installation and maintenance of bailey bridges
- Design and construction of all harbor facilities including the supply, installation and maintenance of crane systems for wharfs and quays
- Engineering services for the planning and execution of clients construction works for all types of buildings, including structural analysis and designs of such buildings and supervision to their completion
- Project management and design for cost control procedure for individual projects
- Location upgrade and restoration of ABA
- Design and construction of water facilities including portable and wastewater treatment plants, boreholes and water supply systems. **FUTURENET VISIONS LIMITED** is capable of handing turnkey projects for water supply to the towns
- The technical composition of our work site usually depends on the size and nature of the contact, extra specialized engineers are usually picked from our associates to meet requirements of each job

Water proofing of re-enforced concrete roofs using specialized modern methods with bituminous sheets including aluminium plated sheets

B. PILLING, JETTY AND SHORE PROTECTIONS

FUTURENET VISIONS LIMITED capabilities have been applied extensively over the past years with extremely successful results. These include feasibility studies, designing, construction, installation, and maintenance works in the following areas:

- Pilling works for foundation structures
- Jetty Construction
- Drainage Construction
- Pile load test
- Shore protection structures
- Sheet Pile Work
- Foundation Design and Construction
- Bridge Construction
- Soil Investigation and Design of Geo-technical Systems

C. ELECTRICAL WORKS

- Installation of Transformers, high voltage cable, armored wire line
- Horse hold Wiring including Fixtures
- Rewinding of Motors
- Electronic Equipment Repairs

D. TRANSPORTATION

- General Transportation Services including Transportation of Equipments, Materials, Manpower, Fitting, Water, Oil etc
- Transport Rental Services including, Rental of Trucks, Vans, Cars etc
- Refuse Disposal Services and Furniture and Delicate Material Movement
- Supply of Building Materials, Technical Tools and Equipments, Water Facility Materials and Equipments

E. GROUNDWATER RESOURCES DEVELOPMENT AND MANAGEMENT

- FUTURENET VISIONS LIMITED is an active participant in groundwater resources development and management under the following sub-headings

GROUNDWATER RESOURCES INVESTIGATION

- Geological Survey/Hydro-geological Survey
- Hydro-geophysical Surveys for Water borehole siting
- Surface geophysical Surveys (Vertical Electrical Soundings VES) for aquifer delineation
- Remote Servicing and GIS application in water resources investigation

GROUNDWATER RESOURCES DEVELOPMENT

- Design and Specification of water wells
- Water well drilling services
- Down-hole geophysical logging for aquifer and water quality
- studies applying electrical and radioactive logging techniques
- Water well completion services and supervision
- Borehole rehabilitation and maintenance
- Water treatment plants and chemicals
- Storage tanks, surface and overhead
- Water distribution network

GROUNDWATER RESOURCES MANAGEMENT

- Groundwater reservoir characterization
- Evaluation of aquifer safe yield
- Analysis of groundwater conditions in coastal aquifer
- Saltwater intrusion studies
- Groundwater modelling
- River basin management
- Conjunctive approach in water utilization
- Studies on down-stream, consequences of an up-stream use
- Environmental consideration

F. MECHANICAL WORKS

DESIGN AND CONSTRUCTION OF ALL FACILITIES RELATED TO OIL AND CHEMICAL INDUSTRIES INCLUDING:

- Flow stations
- Oil location and access road
- Separators
- Platforms and walkways
- Manifolds
- Pipelines and Flow lines including replacement
- Other process facilities etc.

CATHODIC PROTECTIONS FOR

- Underground and underwater structures
- Atmospherically exposed reinforced concrete structures
- General plants

SURFACE PROTECTIONS LIKE

- Sand blasting and repainting of steel tanks, pipes and other steel structures in general with the use of the most modern equipments and materials
- Technical advice on problems related to corrosion including the specification of preventive measures and the use of special materials
- Design and contraction of all types of air-conditioning systems including the supply and maintenance of cold rooms, cold transport vehicles, central air-conditioning systems etc
- Equipment rental services on areas such as rental of cranes, fork lifts, pay loaders and compressors etc.

LIST OF KEY STAFFS

Adeokan Olushola Godwin MD (Geology)

Omotehinse Akingbade Co-Director (Geology)

Engr. Tolu Ige (Civil)

Ojo Olushola David (Account/Audit)

Engr. Obele Boluwaji J. (Mechanical)

Engr. Laoye Abdulrahman Adewale (Civil)

Engr. Omoyemi Anthony Waare (Civil)

Mr. Ogoke Faustinus Ezeh (Project manager)

Adebisi Victor Adedayo (Chief of Art)

Olopa Fiyedenu John (Welder held)

Enefazu Charlse Otunuya (Technical Manager)

Onyenabo George (Rigger)

Peter Chinedu Nwanchukwu (Piler)

COMPLETED PROJECTS

FUTURENET VISIONS has successfully completed a number of Surface and Ground Water projects to the satisfaction of our client as a member of Bi Star Group. The following is the list of few of the completed projects:

| S/N | CONTRACT AWARDED | YEAR | CLIENT | DESCRIPTION | AMOUNT | STATUS |
|-----|---|------|---------------------------------------|--|----------------|-----------|
| 1 | Construction of Perimeter fence on concrete precast Pile. Port Harcourt | 2020 | Multiplan Nigeria Ltd | Breakup existing fence, construct, Pile and build 316m perimeter fence | 23,421,300 | COMPLETED |
| 2 | Installation of 700 lengths 500X300X12m concrete precast pile for shore protection Oxbow lake Yenagoa | 2022 | Bensam Maritime oil & gas Nigeria Ltd | Installation of concrete precast beams for shoreline protection | 31,500,000 | Ongoing |
| 3 | Construction of 322m line drain and culvert, Ilara-Omonira street Igbokoda | 2016 | Ilaje Local government. | Breaking of existing drain and reconstruct with culvert | 52,064,596.90 | COMPLETED |
| 4 | Rehabilitation of upper market street, Iriajomidayo Igbokoda | 2016 | Ilaje Local government. | Reconstruction of drainage and Asphalt laying. | 41,639,385.45 | COMPLETED |
| 5 | Renovation/ Remodeling of School of Maritime transport and logistics OAUSTECH Ugbonla-ILGA | 2023 | OSOPADEC | Renovation/ Remodeling | 211,390,354.69 | ONGOING |
| 6 | Reclamation of 4046.856 sqm of land; Sand filling, fence on concrete precast piles, 10 bedroom guest house and nine bedroom duplex Igbokoda | 2020 | Chief Benjamine Olomidegun | Land Reclamation, Fence on Pile, 10 Bedroom guest house and 9 bedroom duplex | 188,530,415 | COMPLETED |
| 7 | Completion of external works at Omuro international market Ode-Ugbo | 2023 | OSOPADEC | External works | 173,674,882.80 | Ongoing |
| 8 | Installation of 300mm steel casing pipes for the construction of concrete walkway | 2023 | DIPCREST | Piling | 88,494,000 | Ongoing |
| 9 | Installation 300mm steel casing pipes at Erunona community | 2023 | DIPCREST | Piling | 4,966,500 | Ongoing |
| 10 | Reabilitation of rural road project at Iyaoba Loghe | 2022 | FADAMA | Reabilitation of rural road | 18,000,000 | Completed |
| 11 | Construction of concrete landing jetty at Obe-nla | 2022 | FADAMA | Construction of concrete landing jetty | 29,770,000 | Completed |
| 12 | Construction of solar street light at ilutuntun okitipupa local government area ondo state. | 2021 | Pamore integrated services limited | Construction of solar street light | 9,960,000 | Completed |
| 13 | Construction of solar street light at Ijapo Estate | 2021 | Pamore integrated services limited | Construction of solar street light | 12,495,000 | Completed |
